

Corporate Volunteering with Be My Eyes

Rally your team around a shared cause

Help Blind and Low-Vision People Lead Independent Lives

Be My Eyes invites your company to join the largest online blindness community in the world. With Be My Eyes, teams of all sizes can share an experience of volunteerism, across multiple locations and timezones. Be My Eyes is a versatile platform with the ability to support companies at all levels. In our corporate volunteering program, we enable small organizations and companies as large as 150,000 employees to support the blind/low-vision community.

Without leaving their desk, your employees can foster positive social change by being available to support a blind person with occasional small tasks.

How It Works

- 1 Your company signs on with Be My Eyes' corporate volunteering program
- 2 Interested employees create a volunteer profile on the Be My Eyes App
- 3 Volunteers will receive randomized live video calls from our blind and low-vision users, and if they are available to answer, may assist with daily tasks and needs (such as reading a label or identifying a product on a shelf)
- 4 Call requests appear as a "Be My Eyes" notification on a users' phone, similar to a Facetime or a Skype - but anonymously - no phone numbers, emails or names are shared
- 5 Calls typically last two to three minutes, but can go on for longer if a volunteer has time to help for longer

Blind or low-vision person requests assistance

Sighted volunteer receives video call

How Volunteers Help

- ✓ Help solve a wide range of daily tasks for blind and low-vision users, including finding lost or dropped items, reading labels on household products, and matching or explaining colors
- ✓ Provide a sense of independence and confidence to blind and low-vision people around the world

Choose a Program that Works for You

Quick and easy to get started

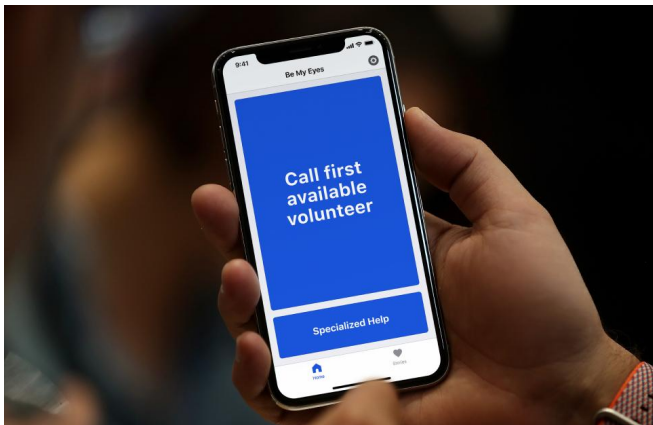

Sign up your company for volunteering and we'll send you our welcome packet and quick-start training materials. We will also connect you with a Corporate Volunteering team member who you can contact to share any specific volunteer experiences or questions, or if you are interested in pursuing a more comprehensive program.

We offer more extensive corporate volunteering programs that contribute to your company's social responsibility, diversity/inclusion and purpose-driven initiatives. Fees vary based on scope and organization size.

Benefits and experiences include:

- ✓ Media, communications and brand support
- ✓ In-person and Video-Conference Presentations and Q&A's from Be My Eyes Leadership or our network of Blindness and Accessibility Partners
- ✓ Quarterly volunteer experiences to generate excitement and momentum throughout the year-long partnership
- ✓ Presentations for executive leadership or key customers to highlight the program
- ✓ Co-sponsored CSR and advocacy initiatives

Our team will work with your organization to create a customized, flexible program that fits your needs

Volunteer opportunities are flexible to your employees' schedules

Incoming video calls start with a notification that volunteers can either accept or ignore, based on their availability. Calls may come at any given point in the day. Our extensive volunteer network ensures that a call will always be received, even if an individual employee can't answer an incoming call.

“
Corporate volunteering programmes are no exception to the broader digital transformation underway. Be My Eyes provides a timely, deeply meaningful and practical way to share your gift of time and sight, while offering employees a broad-reaching and accessible means of contributing their time.”

Aurelia Rochelle Figueroa,
Senior Corporate Sustainability Manager,
IWC Schaffhausen
